Setting up Email Account in Eudora for MACs  
*for customers who use mail.excell.net/mail.excell.net email settings*

In Eudora, go to the SPECIAL menu and select SETTINGS.

- In the Options window, you will see several icons on the left. Select GETTING STARTED.
- In the USERNAME field, enter your login name: full email address (lower case)
- In the MAIL SERVER field, enter: mail.excell.net
- In the REAL NAME field, type your name the way you would like people to see it when they get e-mail from you. For example: Mary Smith.
- In the SMTP SERVER field, enter: mail.excell.net
- In the RETURN ADDRESS field, enter your e-mail address. For example: name@domain.com
- Click OK. This completes the basic setup - you should now be able to send and receive email in Eudora.

To configure authenticated SMTP in Eudora:

1. From the Tools menu, Select "Options..."
2. Click on the the "Sending Mail" icon.
3. Check the box next to "Allow authentication."
4. Click the OK button.
